The letter was written by Douglas, and it was written to Douglas, and addressed to Sunol, but the envelope was addressed by someone else. Whether he is in hiding and has found friends, is not known, but at least, according to the letter, he is all right.—The Pleasanton Times.

TAKE CARE NOT TO LOSE YOUR RATION BOOKS!

Take special care of ration books during holiday buying!

That advice was given Christmas shoppers today by Geo. C. Rodding Jr., chairman of the Niles War Price and Rationing Board. He said that many ration books are lost by women shoppers who remove the books from their purses and carelessly leave them on store counters. He pointed out that only in cases of extreme emergency could a lost ration book be replaced without delay.

Meanwhile, on the enforcement front, the OPA campaign to halt overcharges by restaurants continued. In Portland, a number of cafes were given thirty day suspensions, while in San Francisco, eleven more eating establishments were served with injunction suits.

Other enforcement actions by the OPA included: indictment of a curbstone black market operation in nylon hose in Seattle, and the arrest of two merchant seamen involved in a black market gasoline ring in the same city.

FARM CENTER TO FURNISH HOSPITAL UNIT

CENTERVILLE — Furnishing one of the 63 solariums at the U. S. Navy hospitals at Camp Shoenemaker, Pleasanton was the project adopted by the county committee of the Alameda County Farm Home Department at the Washington Union High School last week.

Window draperies, potted plants, radios and other equipment are being sought with Mrs. Mary Gastelum, Mrs. Adeline Santos and Mrs. Mildred Schilling in charge. The 15 centers represented are also donating cash or gifts to the hospitals for Christmas, including coverlets made from wool squares.

Mrs. Paul Ramm of Castro Valley presided. Reports of the recent Farm Bureau convention at Santa Cruz emphasized co-operative food processing, the new aim, according to Mrs. Minnie Buhn to be scientific processing to avoid spoilage. Use of school cafeterias during Summer, arrangements with local canneries or installation of community canning units were suggested. California women processed 30,000,000 jars of fruit and vegetables this year.

The Alvarado center, headed by Mrs. Adeline Santos, was hostess to the more than 50 attending. A Christmas tea and exchange of potted plants followed a program by 4-H Girls of Centerville directed by Mrs. Geraldine Rogers. Mrs. Rogers gave two vocal solos, accompanied by Mrs. Inez Silva.

BEET HARVESTER DOES WORK OF 25 LABORERS

ALVARADO — Ranchers of Washington Township and from surrounding territory last week witnessed the second local demonstration of the new sugar-beet harvester which is expected to revolutionize the industry from a labor standpoint.

The first demonstration was given several weeks ago when local beet growers saw the machine dig, top, pile and load the beets all in one operation.

Can Replace 50 Men

Twenty of these machines and as many men can replace 500 hand-harvesters, according to Andrew Logan, agriculturist for the Holly Sugar Corporation at Alvarado. Greatly increased plantings will result from the use of this combined plow, topper and loader, if growers get satisfactory information from Washington as to ceiling prices or subsidies sometime soon, Logan prophesies. Beet harvest labor has been a paramount problem due to its heavy nature. In the past, two groups have been employed, stoop labor which digs and tops the beets, and the loader crew.

The new one-man harvester which is gaining National recognition is a combination plow, a lifter which consists of a large spiked wheel that rotates over the beets and carries them via a drag chain conveyor to knives which sever the tops which are thrown back into the field. In the meantime the beets are tossed upon a rotating wheel which knocks off the dirt and dumps them into a truck. A machine can harvest six acres per day.

Built at Rio Vista

The Schmidt brothers of Stockton are the inventors of this new labor-saving device which is being manufactured at Rio Vista. The newest model, harvesting two rows simultaneously, is being demonstrated on the Herbert Young ranch at Tennyson this week.

The Holly Sugar plant here which annually produces about 450,000 100 hundred-pound bags per season, did not operate this year due to a combination of circumstances, chief of which, according to officials, was tardiness of Washington in announcing the subsidy program. A year ago beets brought \$11.50 per ton including a \$1.50 subsidy. Growers claim they must have \$13 or \$14 per ton to make beet-growing a profitable enterprise even with mechanized labor.

DECOTO GROUP
ENJOYS ANNUAL
TRAVEL MEETING

DECOTO — The Decoto Discussion Group gathered at the home of Mrs. Evelyn Joseph at noon on December 2, for the travel meeting of the year. An attractive two-course luncheon was served by the hostess, assisted by Mrs. Helen Brown. The center of interest of the inviting luncheon table was a unique arrangement of blue-green sedums with ripe persimmons on a wooden tray.

The program was in the competent charge of Mrs. Ethel Avilla who selected Kableona by Contran de Poncins, for study. Mrs. Avilla directed the discussion to bring out the rare spirituality and amazing appreciation of beauty revealed by the author in his grilling and often sordid experiences among a primitive people in a bleak and static land.

A most interesting review of the book, Why Japan Was Strong, by John Patric, was given by Mrs. Helen Brown, who made a careful selection of the highlights of the book and presented them in a clear and animated style which added very much to the enjoyment of the program.

The January meeting will be held at the home of Mrs. Elsa Walker and will be the Bible meeting of the year. The leader, Mrs. Amy Brown, has chosen the first period of the life of David for study.

SPEED VICTORY—TAKE YOUR
CHANGE IN WAR STAMPS

Julia says—
Here are some
real time-savers

AND THIS is certainly a time for saving minutes and hours, what with everyone being busier than ever with war work, not to mention the close approach of Christmas and all that it means.

I've had that time-saving idea in mind, myself, for quite a while now—and I've planned a few time-saving menus which I'll pass along because they have worked well for me.

Perhaps they will give you some good thoughts about simplifying your plans for nutritious meals during these crowded days. Why not try one of these

EASY TO PREPARE MENU IDEAS

Baked Biscuit Sandwich with
Mixed Greens and Vegetable Salad
Extra Biscuits Jam
Fresh Fruit or Baked Apple

Biscuit Sandwich: Make double recipe biscuits (4 cups flour or use prepared biscuit mix), halve dough. Divide one-half again and roll into 2 squares (8 x 8); place one layer in pan, add thick creamed filling of leftover meat or fish or luncheon meats, top with remaining layer of dough and bake in moderately hot oven (425° F.) about 25 minutes or until done. Cut in squares to serve. Bake remaining dough as biscuits.

Egg Scramble in Bologna Cups
Buccatosh Cole Slaw
Heated Bread Slices Honey
Baked Gingerbread Mix

Egg Scramble: Cube slices of bread (1 slice per egg), brown in bacon drippings, add egg beaten with milk (2 tbs. per egg), scramble. Sauté sliced bologna or luncheon meat in drippings until slices cup. Fill with egg mixture.

Pan-Fried Ground Meat Patties
Raw-Fried Potatoes
Head Lettuce with French Dressing
Warm Packaged Chocolate Pudding
with Vanilla Flavored Milk

Raw-Fried Potatoes: Thinly slice peeled potatoes crosswise and pan-fry in generous amount of shortening in covered frying pan.

Crisp Waffles made from Packaged Mix
with Rarebit or Creamed Fish
Carrot Circles with Peas or Corn
Mixed Fruit Salad and
Cupcakes for Dessert

Speaking of simplified menus, there are a lot of things we can all do with flour and baked goodies. Easy to prepare, good to eat, and they use foods that are available in good supply.

Next week, in this column, I plan to offer you some practical ideas along those lines.

TWO YEARS AFTER

It is Tuesday, two years after the Jap suicide thrust at American strength in Pearl Harbor. And I'd a deal rather be on this end of the two years than the other. Even here in Washington Township, only 25 miles inland from the Pacific Ocean, there was a very real sense of dread and incipient danger abroad clear up to the time of the Battle of Midway in June, 1942. There the Jap offensive power was broken. The first two blackouts which occurred here on December 7 and 9 were real blackouts: there actually were Japanese planes overhead. By the grace of God they did not open their bomb bays.

We only had a handful of fighter planes at Hamilton Field in Marin County, at Sacramento air field and a few at the Marina near the Presidio. We did not have enough

anti-aircraft guns to protect just the Bay bridge. There were not a dozen rounds of rifle ammunition in the Benicia Arsenal: it had all been shipped to England after Dunkerke. These are all facts, related to me by persons who knew. Our civilian defense activities were still in the pangs of being born.

The fate of the West Coast trembled in the balance for many months and we can be humbly thankful to the end of our days that a kind Providence spared us from experiencing what so many peoples of other lands had to experience and usually succumb to: bombing, invasion and then conquest by overwhelming hordes of invaders, and then enslavement.

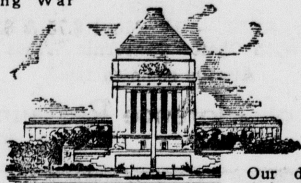

But it's two years later, we are all well and safe and there's nothing much to worry about. Plenty for everybody to eat, prices are still under control, there's some gasoline and some rubber for everybody. Rationing is a heaven-sent boon—nobody can "hog" anything.

And the newspapers make mighty good reading these days: there's a very pronounced undertone of confidence emanating from official sources which have made the plans for our enemies' defeats and only await the rolling around of time to execute them. The United Nations have the upper hand in the air and on the seas and we are fighting to get the decisions on land. Our production is fabulous. To be wasted of course in the crucible of war, but better throw our substance into the battle to keep our way of life than hoard our resources—and perish as a nation.

Russia, that behemoth of military might, which four years ago was nodding coy acquaintance with

BONDS OVER AMERICA

Paying tribute to its fighting men who fell on foreign fields during World War I, Indiana has erected at its capital of Indianapolis this striking War Memorial.

Hoosier Monument

Your War Memorial; U. S. War Bonds

Our dead have left their own memorials; the starved and hounded people of captive Europe can do little more than hope and pray, but to free Americans is left the choice of their own future.

the nazis is now safely domiciled in our camp, and that's something to leave a sigh of relief about. Had Russia thrown in with the Germans against England and U. S. it's very doubtful that we could have survived as sovereign nations.

Italy is done for, like France, for the time being and Turkey and Sweden will one day come into our fold. They who are for us cannot be against us. At present only two beggarly nations are arrayed against the shining might of some 32 nations. There can only be one outcome—barring bungling by those in authority—which so far, happily, we have been spared.

One looked forward to December 8, 1943 with a quiet confidence which is by way of strong contrast to our feelings when we went to bed on December 7, 1941—not knowing at what moment the exploding of enemy bombs might be heard on our homes or our neighbors'.

Thanks be to our fighting warriors on America's 71 armed fronts, whose prowess and blood and sacrifice make it possible for we fathers and mothers and children left behind on the home front

to look forward securely to a happy Christmas—needing only our own Boys home again to make the great annual holiday completely perfect. That day will come, however! —W. W.—

TEACHING A LESSON

It makes good reading to learn that Judge J. A. Silva this week sentenced two Decoto youths, aged 18 and 20, to 15 days each in the county jail for annoying pupils on the Decoto School grounds. Boys past high school age are old enough to know better than to heckle grammar school children, especially girls, offering them rides in their cars, then drinks, then crime—

The only way to halt juvenile delinquency is to discipline the offenders, particularly when it concerns the welfare of our young children while attending public schools.

More of the same meted out by other Justices elsewhere will go a long way towards checking the current wave of misconduct engaged in by young people. Boys 18 and 20 who don't want to be up-right citizens are better off behind

Letters of Praise

from the Army and Navy

"GAS AND ELECTRICITY ARE VITALLY NEEDED FACILITIES FOR SUCCESSFUL CONDUCT OF THE WAR."

IT IS ONLY HUMAN to be made happy by words of praise for a job well done, especially when such praise comes from high ranking officers of the Army and Navy.

At any rate, that is the way the men and women of this company feel about letters of commendation received from Lieutenant General Delos C. Emmons, United States Army, and Vice Admiral J. W. Greenslade of the United States Navy. They are pleased and proud and determined to keep vitally needed gas and electricity flowing in full supply—on time—all the time. Below are excerpts from the letters:

From Admiral Greenslade:

"I am informed by the Inspector of Naval Material and by other officers of my staff having cognizance that the Pacific Gas and Electric Company met wartime demands swiftly and efficiently while at the same time continuing to supply the increased population of the district with essential services. . . . The Company is serving, or has undertaken to serve over a Million Kilowatts of Electricity and over Twelve Billion Feet of Natural Gas to Army and Navy establishments and War Industries. . . . All hands in the Pacific Gas and Electric Company should feel that they have played their part in establishing new construction and production records in this district. . . ."

From General Emmons:

"In view of the splendid performance of the men and women of your organization during the period of emergency, I desire to record my word of commendation to them. The area embraced in the Western United States is a particularly vital and critical one in this war. It has been necessary to construct and operate numerous flying fields . . . to construct shipyards and repair docks and other marine facilities. . . . It is gratifying to know that all of the demands which have been made upon your people and your facilities have been met with most praiseworthy performance and that every reasonable expectation fulfilled."

To all the gas and electric customers, the men and women of this company in turn say—"Thanks for your help" through your voluntary conservation in the use of gas and electricity in the home. Conservation is helping us and helping the war effort.

This wartime Holiday Season
 we advise you

NOT
 to "try the train"

"We're pulling the heaviest loads in history, using every locomotive our railroad owns or can borrow. We're short of trained men, too. To avoid disappointment, better plan or spending Christmas at home."

S. P. Engineer

In normal years the Christmas season is a jolly time on the railroad. Package-laden travelers bound for family reunions fill our trains.

We railroaders have fun carrying people on holiday journeys, and we hate to disappoint a single ticket seeker . . . but this war year we really have no room for pleasure travelers.

Service men on holiday furloughs, relatives traveling to meet them, military personnel in organized groups, business men in war work—these people now have first call on our facilities.

This means that, unless you must travel, you'll be wise NOT to try the train. We hope there'll come a Christmas soon when our message can be different!

CLEAR THE RAILS FOR HOLIDAY FURLOUGH TRAVEL

"S.P.'s promised to carry us wherever we need to go, and this is our thanks to people who give up holiday trips this year."

BANK OF AMERICA VOTES BONUSES FOR ALL EMPLOYEES

Employees of the Bank of America had been notified today by L. M.
